## 24 April 2011 - Study "Medical Tourism - Quality Beyond Boundaries"

24 April 2011 - Study "Medical Tourism - Quality Beyond Boundaries"

How can quality and service quality in the medical tourism sector be analyzed, measured and compared?

An independent research team of eight members from Hotel Management School Maastricht, Reza Consultancy and VIVAI Software AG with diverse cultural and linguistic backgrounds worked for 20 weeks on a project to look into the various quality assurance systems in the major medical tourism destinations. The Temos certification system was part of the analysis, please find an extract of the results about Temos here.
