Dear Dr. Mika,

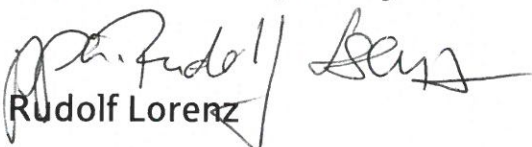

Assistance companies such as Deutsche Assistance Service GmbH require up to date and detailed information regarding worldwide medical services. This is why Deutsche Assistance relies on the Temos International's certification program in order to find certified and quality medical providers.

As an independent certification body, Temos International focuses on important criterion such as quality, cost, and treatment guidelines. The process is transparent, clear, and regularly checked and updated. Naturally organisations that are certified by Temos International are preferred above all other facilities.

This helps build a relationship of trust, thusly medical facilities certified by Temos International are more likely to be recommended to the customers of Deutsche Assistance Service GmbH. In addition to increasing the number of patients allocated to them, Temos International certified medical facilities receive direct access to Deutsche Assistance Service GmbH to negotiate individual contracts to the advantage of all involved.

Deutsche Assistance Service GmbH views this service as essential and looks forward to a productive future cooperating with Temos International.
